

ETHAN KONG LYE KIT (JIANG LIJIE)

+65 8322 0982 [LinkedIn](#) e.kong08@yahoo.com

Objectives

- Pursuing opportunities to apply analytical thinking and communication skills in a dynamic, client-facing or research-driven environment.
- Seeking to develop skills in product presentation, data collection, content creation to ensure client satisfaction.

Education

Hwa Chong Institution (Integrated Programme) **2021-2024**

Science Math Talent Programme L2R5 MSG: 1.29

Hwa Chong Institution (Junior College) **2025-2026**

Science Math Talent Programme (PCME/H3 Physics) Promotional Examination RP: 68.75

Awards and Achievements

- Singapore Science and Engineering Fair (SSEF), Awarded Silver 2025.
- Recipient of the 2024 Ee Hoe Hean Club Chinese Book Prize Award
- International Chemistry Quiz, Year 11, Distinction, 2024
- Participant in the Youth Science Forum, Awarded Merit, 2024
- Singapore Mathematical Olympiads Competitions, Senior Division, Bronze Award, 2024
- Participant of the A*Star Research Exposure Programme 2023
- C. B. Paul Memorial Science Quiz (Individual), Gold Award, 2022

Research Experience

Research @ Nanyang Technological University

- Collaborated with Assoc Prof Sieren Lim to conduct experiments on Pectin-based hydrogels with incorporation of Silica Nanoparticles, 2024.
- Performed cell seeding, cell counting, plating, and incubation under sterile conditions with University Laboratory Protocols. Frequent use of Excel to tabulate data.

Development Of a Novel Method for Synthesizing Pectin Hydrogels

- Collaborative research with students from the Academies of Loudoun, VA, USA, 2023-2024
- Year-long project researching Pectin Hydrogels as potential alternatives to traditional wound dressing materials.
- Incorporation of Silica Nanoparticles to improve Tensile Strength and Water Absorption/Retention capabilities.
- Investigated synergistic effects of anti-inflammatory drugs with Silica Nanoparticles to increase drug delivery capabilities of Hydrogel.

Projects

Content Creation

- Edited and produced short-form content with DaVinci Resolve 20.
- Colour graded photographs with darktable.
- Adept at infographic design with 2 years of Canva experience.
- Established good client relationships to enhance product viability and reception.
- TikTok: @atypicaldinosaur, Instagram: @atypicaldinosaur

Leadership & Involvements

Track & Field, Jumps Division

2021-2023

- National School Games C Division Triple Jump, 1st Position
- National School Games C Division, Long Jump, 2nd Position
- SSSC Colours Award Recipient
- Western Australia State Track & Field Championships 2023 U16 Long Jump, 7th Position

Library Council

2024

- Book Talk @ NLB Jurong Regional Library about *The Hunger Games* to 10 primary and secondary school students. Taught students basic 3D printing skills.
- Designed Instagram stories, Telegram posts and infographics with weekly book recommendations.

- Managed Class Finances, coordinated Class T-Shirt designs, planned multiple Class Events across the year.
- Planned and hosted a class party of 30 pax, providing refreshments, engaging activities and good atmosphere for both teachers and students.

Skills & Interests

Skills:

Effective Communicator

- Easy-going, approachable, team player. Able to take the helm and lead a group towards a common goal.
- 4 years of experience in group-based settings for Project Work.

Content Creation

- Equipped with the necessary skills for graphic design and video editing.
- Experience with Clipchamp, Canva, DaVinci Resolve, darktable.
- Garnered 1000+ views, 100+ likes from edits on TikTok in a week.

Budding Researcher

- Efficient with basic Laboratory techniques, equipment and protocol, such as micropipettes, autoclaves, centrifuges, spectrophotometer.
- 2 years of experience in School-based Science Research Centre.
- Familiar with external research laboratories protocol with prior experience at NTU research laboratories.

Interests:

Animals and the Environment – I find happiness documenting nature, hoping that my content will increase awareness of the lives they lead and impact they leave.

Sports Fanatic – I relish playing basketball, badminton, frisbee, and volleyball with my peers, forming healthy relationships while growing stronger together.
